

## FRIENDS OF MYAKKA RIVER - 2023 PRIORITY INITIATIVES

### Environmental Education:

- Financially support field trip costs to the park, with priority funding to schools that cannot afford busing.
- Subsidize expenses related to nature-connection programs in the park.

### Habitat Restoration:

- Support the creation and operation costs of a small, in house Native Plants Nursery, for use for habitat restoration at The Park.

### Historic Weir Development:

- Financially support the planning of an interpretive wildlife observation platform near the site of the Historic Weir on the Upper Myakka Lake.

### Bike Myakka for Good Service Rides:

- Continue to grow our new award-winning monthly program, which offers the community an opportunity to give back to the park, while learning about its delicate ecosystems and history.

### FRIENDS OF MYAKKA RIVER

exists to support Myakka River State Park, and the Wild & Scenic Myakka River. Together, we're protecting and sharing Myakka's Magic, to the benefit of future generations, and our own.
